

What Next...

Information for care leavers
and young people in care

2020

A guide to the support
available in further
education

This resource has been put together to support young people, their carers, school and social worker to make choices about 'What's Next...?' when year 11 comes to an end at school.

There are many choices to make regarding the future: to stay in education to gain more qualifications or enter the working world? This can be based on a career ambition, a subject enjoyment or other circumstances affecting this decision. Whatever the choice, it will bring opportunities, a chance to develop new skills, gain more confidence and meet new people.

It is important to start the conversation about post 16 options early; the earlier we start this conversation to talk about things the young person is good at, enjoys and what they want to do for a living, the better prepared they will be to make the right choices.

Adults can offer support to young people about to leave school by:

- Taking the time to understand and alleviate any fears.
- Reassuring them that there is support and they will not be on their own (whether this is about money or study support).
- Encouraging them to attend taster days and open days – if possible go with them!
- Encouraging them to talk to named contacts to find out more.
- Keeping in touch once they start a post 16 pathway – they will still require support and a friendly face.

The aim of this resource is to detail what post 16 providers can offer care leavers and young people in care when they opt for their post 16 provision. The booklet is designed in an easy to use format in the style of a directory; this is so you can see at a glance the specific support the provider can offer and a named contact.

We hope that you find this resource useful in supporting young people in care and care leavers with their post 16 options.

www.hants.gov.uk/yourfuture
www.hants.gov.uk/cic-virtual-school

www.hants.gov.uk/educationandlearning/yourfuture/workingandtraining/careershelp

In Hampshire the Virtual School model has been extended to become the Hampshire Virtual School and College. This is so that young people in care and care leavers benefit from the same approach of tracking and intervention to ensure access to high quality sustainable education, employment or training.

There are 5 advisers within the Virtual College whose role is to support our most vulnerable young people in care with their journey towards a successful post 16 destination. Each school will have their own careers provision and the support from the Virtual College is in addition to this. This support will be targeted and personalised to the individual young people's needs; however it could include:

- Bespoke careers advice and guidance
- Attending PEP meetings to discuss career choices and options
- Working in partnership with social workers, personal advisers and post 16 settings to support the young person to remain engaged with their education, employment or training
- Providing foster care training, to include information on careers, qualifications and options for young people

In year 11 the social worker, school and virtual college should be working with the student to discuss, plan and apply for post 16 education or training and this should be recorded in the PEP. We expect that all designated teachers respect the young person's decision about their right to anonymity in their post 16 setting if they choose.

Where the care status is declared the designated teacher should establish contact with key adults at the young person's intended destination during the summer term and a transition plan should be drawn up.

We also ask that designated teachers and social workers explore with the young person whether they wish to have a KS5 PEP record this information in the pupil voice section

<https://www.hants.gov.uk/education-andlearning/virtual-school>

Keeping on track – continued

16-19 Bursary

All young people in care and care leavers aged 16-19 in full time education are eligible for the enhanced bursary. This is up to £1,200 per year. Students need to apply to their college, sixth form or training provider in order to receive the bursary. The bursary is paid directly in to the student's bank account on a schedule decided by the college, sixth form or training provider, and can be dependent on factors such as attendance and behaviour.

<https://www.gov.uk/1619-bursary-fund>

Further Education and Training

There are various options for further education and training, depending on their interests, aspirations, qualifications and experience. Students can choose to follow an academic pathway such as A-levels, a vocational pathway such as BTECs, or work-based training through an apprenticeship or traineeship.

Higher Education

Some students may decide to continue to study after further education and move on to higher education, such as university. Eligible care leavers are offered additional support through universities. This can include finance support, reduced fees, year round accommodation and mentoring. For more information visit the propel website which is a comprehensive online resource for care leavers containing information about the support available to them from universities and colleges in the UK

www.ucas.com

<https://propel.org.uk/UK/>

Referral

To discuss a potential referral or ask for an advice please contact the Team Co-ordinator Leo Milasinovic - Leo.Milasinovic@hants.gov.uk

College Application Timeline

Tips for applying to college

- Apply as early as you can as some courses will fill up quickly
- College will usually start accepting applications the September before you are due to start
- Always check if the college has it's own specific application deadline and stick to it
- You can apply to as many colleges as you like and then decide which one you want to go to in September
- You can apply for a range of courses/subjects and again make your final decision once you have your exam results and are ready to enrol

www.hants.gov.uk/yourfuture

www.hants.gov.uk/cic-virtual-school

www.hants.gov.uk/educationandlearning/yourfuture/workingandtraining/careershelp

Application steps

Careers information, advice and guidance

From a range of sources including careers advisor, teachers, support staff, parents and carers

Through out year 10, 11 and onwards as needed

Attend college open events

A great opportunity to find out about the courses on offer and to look round the college

Summer of year 10 through to starting college

Complete and submit your application

From the beginning of year 11 onwards, but ASAP
Check if the college has a specific deadline

Interview

Normally quite informal but is still important. You will meet the teaching staff to find out more about the course, explain why you want to do the course and ask them any questions
Not all colleges and not all subjects will offer an interview, they may go straight to offer stage

October – September

Receive and return your offer of a place

This could be an unconditional offer or a conditional offer meaning your place is conditional on certain criteria, normally for specific grades, attendance or a reference

After your interview
Return the acceptance of your place ASAP. You can always turn this down later

Taster day

A chance to start meeting some of the other students who will be on your course and to get a taster of what the college and course is like
Not all colleges offer taster days, they may go straight to enrolment

January – August

Transition support can be available through the PEP. Training provider invited to the summer PEP to support with transition and to ensure support is in place for September. Opt to have a KS5 PEP for continued support

April - July

Enrolment

Make your final choice on which college and course you want to enrol on to. Attend your enrolment date and time and complete and submit any bursary forms

July – September
