I attended Emma's Paediatric First Aid course online in May 2022 when my son was just 3 months old. At the time, I had no idea that the skills and knowledge I gained from that course would become crucial in a real-life emergency situation. A year later, my son suffered a febrile seizure as a result of a rapid spike in temperature due to pneumonia. I couldn't detect any breathing and he began to turn really blue. For a brief moment I panicked and felt helpless but then quickly pulled myself together and relied on the training I had from the course. I started CPR and after about 3-4 minutes I felt my son's breath which was the most incredible relief ever. By then my mum had already called for an ambulance and my son was taken to the hospital where we spent 5 days. Thankfully, he made a full recovery.

I am really grateful to Hampshire Libraries for offering this course for free to the community and couldn't recommend it enough. The skills and knowledge you gain can literally save lives. I'm also really thankful to Emma Chinner for sharing her knowledge and expertise. It's been a privilege to have such a knowledgeable, experienced, engaging and empathetic first aid instructor as Emma.

Now, two years later, I'm expecting my second child and have just attended Emma's course again as a refresher. It has given me confidence to know exactly what to do in an emergency situation, both at home as a parent but also in my community.

A really HUGE THANK YOU to everyone who's made this course possible!
