

Forest snapdragon

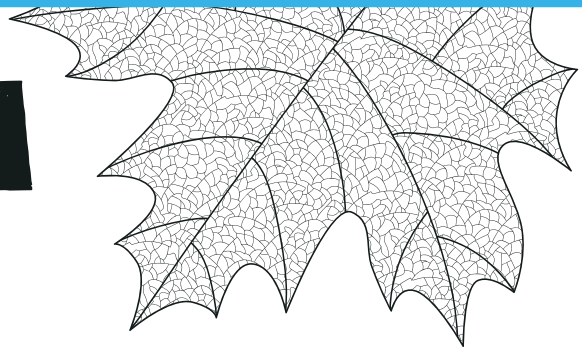

Make a simple paper game then play it with your friends to learn more about the forest

Instructions on next page

 <p>Snake</p>	 <p>Spruce</p> <p>Can you name something important that trees give to people and animals?</p>	 <p>Holly</p> <p>Can you name a bird that lives in the forest?</p>	 <p>Deer</p>
 <p>Larch</p> <p>Can you think of an animal that lives in the forest?</p>			<p>Oak</p>  <p>Can you think of something people enjoy doing in the forest?</p>
 <p>Pine</p> <p>Can you think of a game you could play in the forest?</p>		 <p>Forestry England</p> 	<p>Can you name something made of wood?</p> <p>Can you name</p>  <p>Ash</p>
 <p>Owl</p>	<p>Birch</p>  <p>Can you name something we can eat that comes from the forest?</p>	<p>Can you think of a job that someone does in the forest?</p>  <p>Beech</p>	<p>Spider</p> 

How to make a snapdragon

1. Cut along the dotted lines to make a square. Place the square with the pictures facing down **A**.
2. Fold the four corners of the square into the centre **B**. This makes a smaller square **C**. Turn this square over **D**, and fold the four corners in again **E F**.
3. Fold all four corners up so that the points meet in the middle **G**, then push the first finger and thumb from each hand into the pockets of paper in each corner **H**.

We are Forestry England - We look after more trees than any other organisation in the country, shaping landscapes for people, timber and wildlife

How to play

Hold the snapdragon as explained above, then ask a friend to choose a forest creature from the four on the outside e.g. deer.

Spell out the name of the animal or bird, 'd-e-e-r' while opening and closing the snapdragon one way then the other.

Next, your friend chooses a tree from the four shown. Spell this out in the same way, then ask your friend to choose another tree.

This time, open up the snapdragon and ask the question under the chosen tree name.

Play again

How many different answers to the questions can you and your friends come up with?
