

Name something you could do at school to protect the environment.

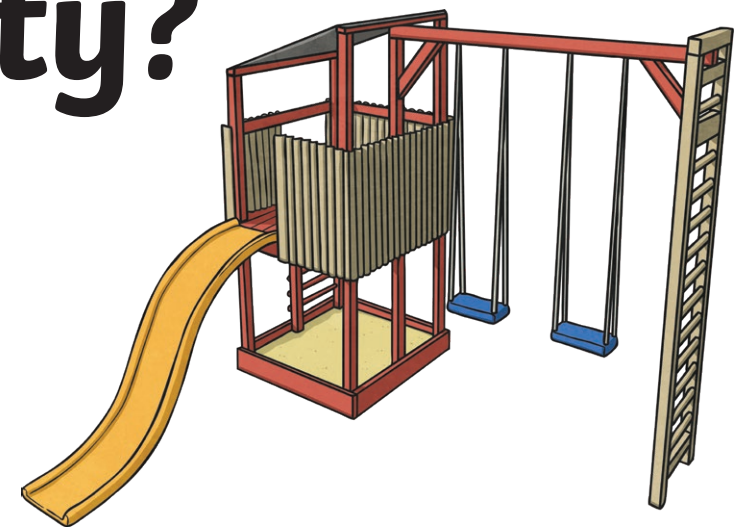

**Why is John Muir
still a significant
individual today?**

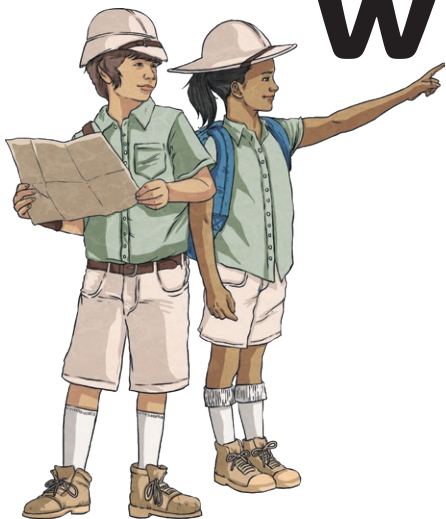

**Why is it important to look
after the environment?**

**What could we do in our
playground to encourage
biodiversity?**

**If you could explore any
wild place in the world,
where would it be?**

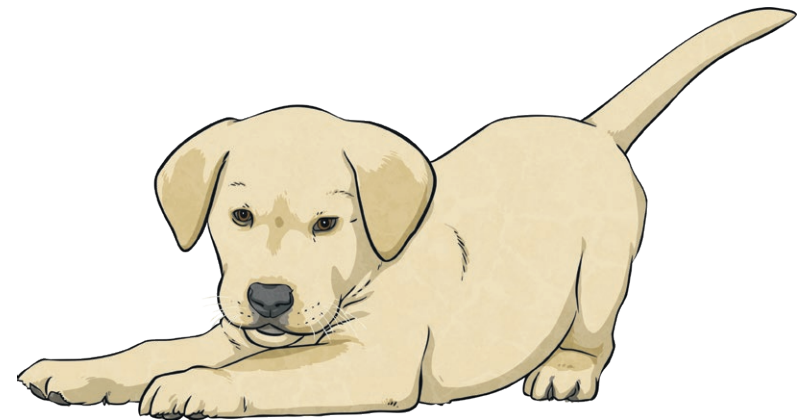

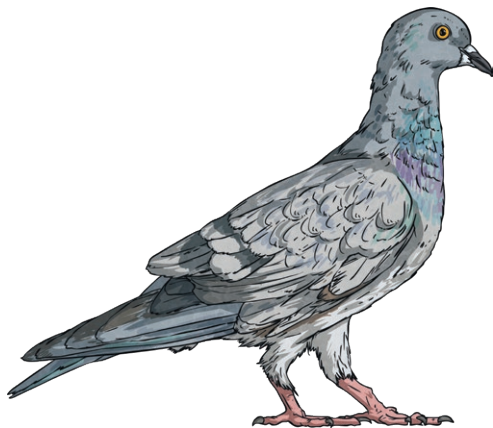

Name something you could do at home to protect and preserve the environment.

John Muir recognised that all living things were connected.

What does this mean?

**If you could ask
John Muir a question,
what would it be?**

John Muir said, “Trees are the lungs of the world, our friends and protectors. If we kill the trees, what will happen to us?”

Answer John’s question.

John Muir loved the outdoors and exploring wild places.

How does being outside make you feel? Explain your answer.
