

Health and Social Care L3 Home Learning

Welcome to the Totton College!

We have put together some tasks around subjects that you will be studying next year at college on the BTEC Level 3 Health and Social Care course.

Please follow the instructions and bring with you when you start the course. Any problems, just email info@totton.ac.uk and they will link you to a member of staff.

Enjoy!

Equality, Diversity and Rights

1. Print out the dominos in the Excel programme. Be careful not to look at the answers as it will print these too!
2. Cut the dominos out and match the right term to the correct definition. Take a photo with your phone to show your evidence. Check your answers with the answer sheet.
3. Are there any terms that you don't understand? Look them up in a dictionary or using a search engine to see if you can make sense of them.
4. Now using the info sheets, have a read through about being a Jehovah's Witness. Highlight or underline any text or words that you think are important or relevant.
5. Using the key terms and the information you have learnt from the info sheets, read and answer the questions on Mr Potter. The answers should be at least a paragraph long each and show that you have used the key terms in an accurate way.

Anatomy and Physiology

1. Research the different bones in the body. Now label the bones in the bone worksheet
2. Research the different parts of the heart in the body. Now label the parts of the heart in the heart worksheet
3. Watch some of the clips on youtube that show how the heart works.

4. Create a powerpoint presentation that explains how the heart works in the human body. Include diagrams and clips where appropriate.
